

Driven By Love 2010

Shane was admitted to the Children's Hospital emergency after his pediatrician visit. He immediately had a CT scan (a detailed picture taken) of his head, which showed a large tumor. To make Shane feel better, while the medical team determines what the tumor is, Shane had to have a drain placed in his head to relieve the pressure. Shane also had a biopsy of the tumor to determine the type and classification of it. Shane has been courageous throughout all procedures and surgeries. His recent scans show that the larger tumor has slightly grown leading to a change in treatment. For more information or to donate directly please log on to <http://www.carepages.com/carepages/ShaneHaddad/patient>.

Since August of 2005, when Driven By Love was born, we have raised over \$25,000+ for families of children suffering from disease. Trevor, Princess Ashley, Maria, Camp Cheerful and Keyera have all been recipients of your love and charity.

Amy and Eric, Shane's parents have felt God's grace through everyone's kind words, actions and prayers that continue to come their way.
